SUMMARY

Software Engineering student with hands-on, real-world experience building and testing REST APIs. Backend-focused with Java/Spring and Python/Django, plus working exposure to React and React Native on the front end. Comfortable with Git-based collaborative workflows, relational databases, and Agile/Scrum teams. Looking to grow as a Junior Software Engineer, contribute to cloud-oriented production systems, and learn from senior engineers.

EDUCATION

Universidade de Fortaleza (Unifor) — Fortaleza, CE

Technologist Degree in Systems Analysis and Development (Análise e Desenvolvimento de Sistemas) — *4th semester in progress, expected graduation June 2027*

EXPERIENCE

Software Engineering Intern — Deway *7 months*

- Designed and maintained REST APIs using Django REST Framework (Python), supporting core application features.
- Validated API endpoints and request/response behavior using Postman as part of the development and QA cycle.
- Collaborated with a cross-functional development team following Agile/Scrum practices.
- Used Git for version control in a shared, multi-developer codebase.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, HTML, CSS

Backend: Spring Boot, Spring Data, Spring Security, Django REST Framework, Node.js

Frontend: React, React Native

Database: PostgreSQL

Tools & Practices: Git, Docker, Postman, Scrum/Agile

LANGUAGES

Portuguese: Native **English:** Intermediate (B1)
